# "Lost" Prisoner

PARIS, March 23.—(P)—A prisoner who walked out of a hospital and took a cab back to jail had the Paris police running around in circles for hours this evening.

Madame Marthe Hanau, who had kept up a hunger strike for 23 days in jail as a protest against failure of the authorities to bring her to trial in connection with the huge failure of companies in which she was interested several years ago, was reported missing from the Cochin hospital this afternoon. She had been forcibly fed there for a week.

ing from the Cocali aceptation of the ernoon. She had been forcibly fed there for a week.

The detectives of Prefect of Police Chiappe searched the city for her, and she was finally found, but not by the detectives, in the St. Lazare prison, where she had begun her hunger strike. She had simply walked out of the hospital and taken a cab back to jail.

to jail.

Madame Hanau was the principal figure in the crash of the "Gazette du France" enterprises two years ago. She had violently objected to the forcible feeding at the hospital. Her hunger strike began after she had been more than 15 months in jail while experts still were going over her beeks. rts still were going over her book

# National Welfare **Body Changes Name**

On behalf of the 234 principal char-ity organization agencies and city wel-fare departments of the United States fare departments of the United States and Canada, a change in the title of their national organization to "Family Welfare Association of America" was announced from New York Sunday. Organized by about 60 agencies in 1911 as the "National Association for Organizing Charity." the title, "American Association for Organizing Family Social Work," was adopted 10 years ago, and the scope of its activities has grown since to a point where in 1929 its member agencies were directly assisting over 1, 500,000 individuals toward self-support.

# Sold One Car Sugar, Served Year and Day

LEAVENWORTH. Kan.. March 23.—(P)—Frank Urbanowski, former Peru, Ill., wholesale grocer, was released from the federal penitentiary today, having completed a sentence of a year and a day for conspiracy to violate the prohibition law.

Urbanowski, a member of clubs and fraternal orders in Peru, was convicted for the alleged unlawful handling of a carload of sugar, which it was charged was to have been used in the manufacture of liquor.

Jugo Feone, of the Peru Flour and Feed Company, customer of Urbanowski, also was indicted in connection with the deal and was convicted with Urbanowski. Feone was sentenced to a term of 18 months and sent to Alderson, W. Va., prison.

Besides the sentence of a year and a day which was reduced by good behavior, Urbanowski served 30 days because he was unable to pay a fine assessed with the sentence.

Three Reported to Police, **But Only One Productive** 

Daylight burglars were active in Atlanta Sunday afternoon, but although three were reported to police, loot was secured only in one instance, the burglary at the home of I. L. James, at 548 North Boulevard, N. E. Sometime between the hours of 3 and 6 o'clock the burglars entered the James apartment by picking the lock of the front door and made away with jewelry valued at \$500. In the lot were a number of heirlooms, of sentimental as well as great intrinsic value, Mrs. James told Detectives G. G. Caldwell and A. E. Davis, who investigated.

More than 2,300 firms throughout the United States supply the Ford Motor Company, Mr. Ford said. Business throughout the country is aided by this policy of decentralizing manufacture, he added.

Asked whether employment in the parent plants here had been reduced by the discontinuance of certain departments, Mr. Ford said:

The charge was contained in a letter to Dr. Edwin C. Dinwiddie, dry leader, who is in charge of presenting the prohibition case before the house judiciary committee. Atwood said he bases his charge on correspondence he had with duPont in 1928 and early in 1929.

"As I have studied Mr. duPont's testimony," he said in his letter, "he has not given the committee what I desire that they should have. I would make a charge against Mr. duPont and would desire that he be there to face me on this charge.

"The charge is that he is interested in the liquor business and has in mind from the way he set up in his letters to me that he desires repeal of this law so that he and his associates can further develop in a large and extensive way the sale of liquor in special packages as he has set up in his corrected in the corrected in the sale of liquor in special packages as he has set up in his corrected in the said of the sale of liquor in special packages as he has set up in his corrected in the said of the sale of liquor in special packages as he has set up in his corrected in the said of th

Dinwiddie said he had just received the letter today and had not had time to study it. He said he did not know what he would do about Atwood's request for a hearing until he consults other members of the special dry committee which is assisting him in preparation of the prohibition case before the judiciary committee.

Dinwiddie explained that under the schedule, the drys have only a short time left. They are expected to complete their case at the next hearing days, which is Wednesday, and he said their program for that day is filled. He pointed out, however, that the time may be extended.

PARIS, March 23—(49)—Calendars for both the chamber of deputies and the senate for the parliamentary week beginning tomorrow contain important questions which must be disposed of immediately, it was said in official circles today.

These circles regarded it as extremely unlikely that either Premier Tardieu or Foreign Minister Briand could afford to return to London naval conference unless the parley takes such a turn as absolutely to necessitate their presence there.

The debate on the budget begins in the senate tomorrow. According to a law recently enacted it should be voted, upon before April 1. This is asking the upper house to perform in eight days' work which the chamber needed three months to accomplish. The lower house, however, was interrupted by two cabinet crises.

Premier Tardieu was reported intending to do all he can to speed up the senators. The present schalule calls for the return to London of both the premier and the foreign minister before Tuesday evening.

Edna Arnold Copeland also refers to the fact that "a few years ago The Atlanta Constitution made publie the location of the grave of Nancy Hart 9 miles from Henderson, Ky." It was at her request that Congressman Brand introduced a bill in congress asking for an appropriation of \$1,000, this amount to be used to purchase a marker for the old home site of Nancy Hart, Georgia's "War Woman."

The reference to Nancy Hart as Georgia's "War Woman" recalls that Joel Chandler Harris, in his "Stories civilization is organized wrong end of Georgia," devoted a chapter to to, having alleged "capitalism" at the Revolutionary heroine. Oil Production Gradually Coming Under Control-Stock Market Will Recover, Says Sun Life Head-Women Own More Than Half All Stocks of U. S. Companies.

The oil situation is being gradually brought under control. As an evidence of this, one of the big California fields, the Santa Fe Springs, has decreased its output about 100,000 barrels per day during the last ninety

"As for industry," says this economist, "the very conditions that make for farm depression are helping in the industrial sections. Low food prices will increase the purchasing power of the urban and semi-urban sections, comprising about 85 per cent of the population, and, as in the past decade, a new industrial prosperity will be built on farm distress.

Many business and professional men now believe, however, that no perma-nent prosperity can come to the nation unless agriculture, too, is revived.

### Sermons To Live By BY ELAM FRANKLIN DEMPSEY.

This is in keeping with the general tenor of the Bible, for it is a book which bristles with instructions to be active, fervent, zealous, diligent, industrious, and hence, successful and honored.

The Bible nowhere says any kind word for laziness, sloth, idleness, indifference or negligence.

But everywhere speaks against these unworthy characteristics and, on the other hand, constantly sounds the praises of those virtues which stand over against these inert vices.

Of all styles of laziness, the most guilty, ignoble, contemptible and unforgivable is religious laziness.

Picture a party of nearly 200 Americans, sitting down to a banquet at which were served cocktails, rare old wines and champagne, with a bar adjacent to the gaming rooms in which several hours were spent later on during the evening, without a single case of intoxication, and it must be clear that only a sense of the impropriety of careless conduct could have caused such restraint.

Lavish Hospitality.

Havana's public buildings, its clubs and its private homes were thrown open in lavish hospitality that en-gulfed the city's visitors in such a round of entertainment as to leave them in a condition of being "dead on their feet" when they landed back on their home shores.

All the charm of Havana was unstintedly revealed to the members of the good-will party. # "Talkie" With All - Colored Women Pleased ENTHRALLING DRAMA OF REAL SOUTHERN NEGROES Cast, Classic of Realism On'MarriedLove'

BY RALPH T. JONES.

King Vidor is a native of Texas. Thereby he has been able to do some thing no one not a southerner could possibly achieve. He has taken an all-colored cast of performers—most of them run-of-mine plantation negroes—and created a talking picture that is a classic of realism and a record of vivid truth regarding the life of the American negro of the south. The title he has given his picture is. "Halleduish," and it will be shown at Loew's Grand theater the week of April 7. It was shown at a private preview yesterday. There will be accommodation for both white and colored patrons for that week and it is probable that the capacity of house, large as it is, will be strained to care for the crowds once Atlantans wake up to the unusualness of the picture and the significance of it as an artistic record of the emotions of a race.

1. There is everything in this picture that pertains to negro life in the south. Even before the opening scene is disclosed there is heard a chorus of cotton pickers that instantly establishes the correct atmosphere. Then, in dramatic sequence, the story shifts in the south of the picture are m

from cotton plantation to negro dives, from the harrowing scenes and sounds of a negro "wake" to the emotional intensity of a camp meeting and the hysteria of a river baptism scene. Through it all there is never a moment when the action is false to truth, when a single jarring note, for either white or colored eyes or ears, occurs.

The principals in the cast are colored performers of recognized worth. tion Daniel Haynes, the lead, is from the south.

This comedy, based upon an elderly Englishman and his belated sense of responsibility toward three children of his wild youth, is undoubtedly one of the cleverest and wittiest production.

It is a gospel much needed, that is sane and judiciously expounded. It is a conception, delicate in its treatment yet satisfying and answering many perplexing questions. It discusses the mysteries of marriage frankly, but without offense and it offers a program of vital interest to many.

In it, Dr. Taylor contends that the lazz age, more than any other, needs light on matters of sex to eliminate divorce. # New features of the FORD TRUCK

Interchangeable all around

New Front Axle and Spring

Unusually sturdy front construction

ONE of the first features of the Ford truck to impress you is its rugged strength. At the front end, for example, the special Ford design transverse spring is heavier than formerly, with wider leaves. The new front axle, a chrome-alloy forging, is twice as strong as before. The front radius-rod is heavier, and the king-pins, wheel bearings and thrust bearings are larger.

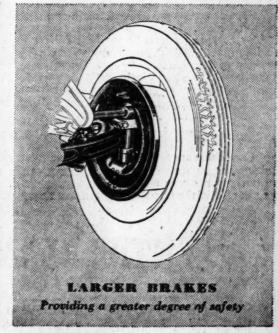

Likewise, the front brakes have been made stronger, the drum diameter having been increased from 11 to 14 inches, the same as on of safety.

A feature of the Ford truck which you will find convenient and economical is the new wheel and tire equipment. Dual rear wheels can be installed at small additional cost.

With the dual equipment, balloon tires of one size are used throughout, so that all six steel disc wheels and tires are interchangeable all around. Only one spare wheel and tire need be carried.

Other new features of the Ford truck which add to its reliability and performance are the 4-speed transmission, which gives a wide, flexible range of speed and power, and the new spiral bevel gear rear axle. The axleshafts are heavier than formerly, and because of the three-quarter floating design of the rear wheels. This provides a high degree axle construction, they serve only to turn the wheels, without carrying any of the weight of truck or load.

Your Ford dealer will be glad to show you these and many other features which make the Ford truck such a remarkable value.

# Get Your Prize-Winning Credits NOW!

The 100,000 extra credit offer and the 50,000 extra credit offer, as outlined above and which lasts until 9 P. M., April 19, are the GREATEST extra credit offers to be made during The Atlanta Constitution's \$25,000 prize campaign. New subscriptions are worth more extra credits during this period than they will be at any time later in the campaign. These EX-TRA CREDITS are given in ADDITION to the regular credits allowed for each subscription as shown in the regular credit schedule below. At no time during the campaign will extra credits be given on Old subscriptions.

Credits will win the awards and every candidate should take full advantage of the extra credit offers. Every New subscription you turn in during this period will count for extra credits, so the more New subscriptions you secure the GREATER the amount you will receive in credits.

Candidates are NOT limited to the number of \$30 club combinations they may secure. Every \$30 worth of New subscriptions will earn the extra credits as outlined above. A pro rata share of extra credits will be given for any amount over a club. It is NOT necessary or advisable to hold your subscriptions until you have the \$30 worth. # TWO WAYS TO OBTAIN SUBSCRIPTIONS

There are two ways offered to candidates for obtaining subscriptions and thereby secure credits.

(1). The contract plan allows you to take subscriptions whereby the New subscribes agrees to take The Atlanta Constitution for a specified period of time and to pay the carrier each week for the paper. These contracts can be taken for subscriptions in Atlanta and outside towns where The Constitution has carrier service.

(2). Candidates also have the privilege of taking cash subscriptions from both Old (present subscribers) and New subscribers and the subscriber pays in advance for the subscription.

Regular credits are allowed for these subscriptions as shown in the regular credit schedule.

By accepting contracts for ONLY New subscriptions, and not accepting Old contract subscriptions, it does away with unfairness whereby agents or carriers of the newspaper could turn over to a candidate hundreds of Old subscribers' contracts which would be very unfair to candidates working for their subscriptions. The plan of accepting contracts on only New subscriptions and paid-in advance on both old and new subscriptions, makes the subscriptions bona fide and fair for all.

# GET SUBSCRIPTIONS ANYWHERE

Candidates are NOT restricted to their own division or district in obtaining subscriptions. They can get them anywhere and from anyone. The division of territory has been made for the distribution of the awards and prizes are to he awarded in the divisions and districts as outlined on this page.

Subscription rates of The Atlanta Constitu-tion are shown below, together with the regular number of credits allowed on both new and old subscription payments. These division car awards will be made regardless of district boundaries in each division.

After the two grand prize winners and the six division prize winners of cars have been eliminated from further competition, next will be determined the three candidates highest in credit standing in each of the ten districts. To the leader in each district will be awarded one of the five \$685 CHEVROLET COACHES or one of the five \$608 FORD TUDOR SEDANS. The five \$685 CHEVROLET COACHES will be given to the five highest of these ten candidates and the five \$608 FORD TUDOR SEDANS will be given to the remaining five winners of district automobiles. The second highest candidate, in credit standing, in each district will be given a \$174.50 ATWATER KENT RADIO, and the third highest candidate, in credit standing, in each district will be given a \$146.50 ATWATER KENT RADIO. Trade-mark

In a like manner, manufacturers, who stand back of their wares, identify them with trademarks that are your guarantee of quality. By advertising these trade-marks, they focus on their products the searchlight of attention.

Only good goods, fairly priced, can flourish in this light of publicity. For no merchandise and no business can thrive under the weight of public condemnation.

That is why a manufacturer, or a merchant, places the whole reputation of his business at stake every time he advertises. His goods must be as advertised.

So, in looking through The Constitution, remember this: the man who spends his money to invite your consideration of his wares backs up his belief in his goods and leaves the final decision to you.

It pays you to read The Constitution advertisements. It pays you to buy advertised products.

Advertising is your protection.

E'RE not content to merely make your suit look a little better. It must be truly clean—as free from soil and germs as modern cleaning science can make it. It takes hard work and hundreds of gallons of pure cleansing-fluid to do that.

We insist that it be handled tenderly, no matter how stout the material. It must be pressed exquisitely smooth. Every inch of the cloth finished with painstaking care, shaped to the correct lines. Craftsmen who know and love their profession—who have spent years studying fabrics and cleaning methods, are required to do this work. Your garment must have their personal attention. A courteous route man calls for your garment and brings it back rain or shine.

That is the quality of service you find at these plants.

Dairying is carried on in a way that is the most profitable to the owners and also to the community itself, for the greater portion of the feed the cows consume is raised on the balance of the farm and not sent to some other distant state for cow feed, thus enabling Georgia-earned dollars to stay in Georgia.

The silo at the Velodrome Dairy Farm is one of the largest in this section and has a capacity of 204 tons of feed. This enables the owners to feed their cows a certain portion of green feed in the winter as well as summer thus insuring the same rich milk every day in the year.

Milk," he continued, "plays such and important part in the daily health of every family that the best obtainable is not too good and especially is this so for sick people, children and babies."

Air. Ball concluded by saying that the new engines they were showing will operate on most any low grade fuel oil such as kerosene and distillate fuel oil thus providing the most economical operating expense of a portable or semi-portable machine. All the new engines have special force feed oiling systems.

One of the show sights in the dairy line around Atlanta is the Velodrome Dairy Farm at Palmetta, Ga.

Located on 825 acres of well-drained and the main highway to LaGrange as they stand out as monuments of pluck and progress of this enterprise.

The Velodrome dairy has an organization of nearly 30 people and here are raised under as near perfect conditions as the most particular health official might like to see.

Dairyping is carried on in a way that is the most profitable to the owners and also to the community itself, for the greater verification of the show sights in the dairy line around Atlanta is the Velodrome barrier from strangers who travel the West Point railroad and the Atlanta branch of the Frick Machine Company has always been one of the mainstays of the company and is one of the oldest farm and saw-mill distributor branches in this country, one of the salesmen here having 58 years service to his credit.

MILLEDGEVILLE, Ga.. March 23.—Dr. Henry Dawson Allen, Sr., will be buried in Milledgeville city cemetery Monday afternoon following funeral service at 3 o'clock from the Methodist church.

Hundreds of recolor of recolors were dealer of the conducted by the Rev. between children of the Tuesday.

In the morning there will be religious services at St. Paul's Greek Orthodox church, conducted by the Rev. in the recesses of the Okefenokee insters of other local churches.

WAYCROSS, Ga., March 23.—Deep in the recesses of the Okefenokee swamp, searching parties were dragof W. C. Anderson, Waycross machinist, who was drowned late yesterday in while on a fishing trip.

Anderson, a resident of 908 Lee avenue. Waycross, and an employe of the Atlantic Coast Line railroad shops here, was in company with other Waycross fishermen when he fell out of a boat. His body disappeared,

companions state, and failed to come to the top of the water.

The theory that he was the victim of alligators has been discredited by inhabitants of the swamp who do not believe that a "gator" would have disappeared completely with the body.

Anderson and his companions left
Waycross yesterday on the fishing trip, entering the swamp in Charlton county, south of here. The report of the drowning was received here last night and a rescue party was organized immediately.

# Rear Admiral Long To Retire in April

WASHINGTON, March 23.—(UN)
After 47 years of active service Rear
Admiral Andree T. Long, a member
of the general board of the navy, and
delegate to the Geneva arms conference of 1926, 1927 and 1928, will
retire from service on April 6.

"The service of this officer is replete with numerous important missions successfully performed." acting
Secretary of the Navy Jahncke said
in announcing his retirement.

Born in Iredell county, North Carolina, April 6, 1886, Admiral Long
was graduated from the Naval academy in 1887.

During the World War he commanded first the Connecticut and later
the Nevada, receiving a distinguished
service medal for his services in cooperation with the British fleet.

It is doubtful if Atlanta as a whole has ever looked forward to any coming theatrical attraction with more genuine pleasure than they feel toward "The Rogue Song," the oll-color, singing and talking picture which signals the debut of Lawrence Tibbett on the audible screen and which is billed to come to the Capitol theater for the week beginning March 31.

Lawrence Tibbett's glorious baritone voice is well known here, by reason of his frequent appearances with the Metropolitan Opera Company. At last curiosity got the best of Flip and he ventured to say to Bowser: "Why are you afraid of Prickly Porky? Does he throw a bad-smelling scent that smarts when it gets in your eyes, and chokes you, the way Jimmy Skunk does?"

"No," replied Bowser promptly. "He hasn't any bad-smelling scent."

"He's very slow moving," said Flip. "He doesn't look as if he could fight."
Bowser grinned. "He is slow moving," he agreed. "He is slow moving," he agreed in the can flip that tail around fast enough. It is a good thing that that tail isn't any longer than it is. Yes, sir, it is a good think that Prickly Porky's tail

Yes, sir, it is a good think that Prickly Porky's tail isn't long like the tail of his cousin who lives way down in a place called the Tropics. I've heard Scrapper the Kingbird, who spends his winters down there, say that Prickly Porky has a cousin down there with a very long tail, only his tail is bare. If Prickly Porky had a longer tail more people would get hurt than do get hurt now."

"I don't understand," said Flip. "What has his tail got to do with hurting people?"

"Everything," replied Bowser very promptly. "You see, that tail is covered with little spears, and if he should happen to hit you with that tail he would leave a lot of those little spears sticking in you and they hurt. I know, for I have felt them. And it hurts still more to have them pulled out. So you keep away from Prickly Porky. He's covered all over with those little spears excepting underneath."

"I didn't see any little spears," repied Flip. "I saw a lot of queer looking stiff hairs.

"No, you didn't," replied Bowser.

"What you call 'stiff hairs' are the little spears I have been telling you about. Prickly Porky is one of the people whom you want to leave absolutely alone. Keep away from him. As I told you once before, if you do not keep away from him you'll be the sorriest dog that ever lived."

Flip said nothing more, but he wasn't satisfied. He couldn't imagine how it was possible for Prickly Porky to really be so dangerous. You see, he knew nothing about those little spears and he wanted to know more. So the first chance he got he slipped away and went back to where he had seen Prickly Porky.

DOUGLAS, Ga., March 23.-An echo from 1919 sounds over the diamond here as the Crackers take their infield drill. The figure of Ivy Griffin, the boy first baseman of the famous Kids that won the pennant, bounces and

whirls around the doorway and sets memories ringing. Ivy Griffin, uncannily preserved in form and face with scarcely a sign of 11 years of grinding baseball in lineament or bearing, is fighting for the regular assignment at first.

To see him out there advancing and retreating from the bag tagging back instinctively with darting foot, one could well imagine he was looking at the boy of 1919, who helped Chick Galloway and Jimmy Dykes and the others win a flag for old

## Marathon Record Smashed by Koski

ST. GEORGE, N. Y., March 23.— (UN)—Karl Koski, of the Finnish-American A. C., broke the worlds-record in the national marathon race record in the national marathon race at Silver Lake Park, Staten Island, today by more than six minutes. He ran the 26 miles in 2 hours, 25 min-utes, 21 seconds. The race was spon-sored by the James J. Tappen post, No. 125, American Legion. The former world's record of 2:33 was established in 1925 by Charles L. Mellor in the Huntington-to-Bos-ton marathon.

# **DETROIT TIGERS** ARE STRONGER

Yankees Expected To Make Trouble for Champion Athletics.

BY BRIAN BELL,

Associated Press Sports Writer. Nothing has transpired in the spring raining camps of American league baseball clubs to justify unbounded en-thusiasm over the chances of any one of the other seven clubs to dethrone the Athletics of Philadelphia, but amreason exists for suggestions that

Conspicuous improvement has been made in the array of talent sponsored by the Detroit Tigers and Chicago White Sox, two clubs who were going where throughout the last American

Detroit, a powerful offensive aggregation, has added defensive strength and may have uncovered two or three pitchers who can take their turn with the club's more experienced mounds-

CHICAGO REJUVENATED.

The White Sox, a discouraged, wee-begone outfit last year, under the driving inspiration of wee Donie Bush have taken on new life and may be very hard to beat.

By popular consent the Yankees have been elected to make the fight against the champion A's and if the freshman manager. Bob Shawkey, gets good pitching they may do it. Connie Mack is prepared for some

Connie Mack is prepared for some pitfalls along the path. The Athletics won 17 games from Washington last year and the veteran manager says quite frankly that it is not in the cards to have this bit of baseball history repeat itself. The tall tactician expects and is prepared for war.

The Athletics naturally will stand pat on the outfit good enough to win in a walk last year. Big Roy Mahaffey may add considerable pitching strength and some bright youngsters will increase the population of the bench.

YANKEE RECRUITS.

Revamped in large part from last year, the Yankees will take the field with two recruits, Ben Chapman and Allan Cooke, filling the important third base and left field posts and with Mark Koenig restored to good standing as the shortstop. In company with several other clubs in the league the Yankees are wondering if they will get the pitching. Time only can tell. Clearland may take with a some-

Cleveland may start with a some-what wobbly infield and the chances are even that Lew Fonseca, leading hitter of the American league, will have to stand aside for a youngster for at least a few days of the season. Fonseca is convalescing from an at-tack of scarlet fever. The Indians, however, will be as strong as last year in other departments.

St. Louis has a new manager but St. Louis has a new manager but practically the same team Dan How-ley led has been left for Bill Killefer to direct. The Browns have capable pitchers, at least one good catcher, and a strong infield, reinforced by Sam Hale from the Athletics. The club could use another hard-hitting outfielder with profit and the pitchers would welcome arrangements to score

NATS NEED GOSLIN. Washington will go along with the material it had last year if Goose. Goslin finally comes into the fold. Goslin, who had his worst year in 1929, carries the punch of the team and if he is not eventually satisfied the attack will be greatly weakened. Manager Walter Johnson expects a distinct improvement in pitching staff.

Detroit, carrying a wallop in either hand, should be a factor in the race if the pitchers do their part to make the hard hitting effective. Last year the Tigers led the league in hitting but finished sixth, faulty fielding and the hard hitting effective. Last year the Tigers led the league in hitting but finished sixth, faulty fielding and weak pitching offsetting the territic batting. Bill Rogell, former Red Sox. may solve the shortstop problem, a vexing situation throughout last season. Elon Horsett, a big Indian from the International league, whose delivery is that of a left-handed Ehmke, seems certain to help bear the pitching burden.

The improvement in the Chicago White Sox is largely shown in the better spirits of the players although the infield has been noticeably strengthened by moving Bill Cisself from shortstop to second base. Ernie Smith and Irving Jeffries provide capable replacements for the vacant short field place. Big Smead Jolly's hat will be better first and runs.

Spring Song of the Average Golfer. You take the fairway, and I'll take the fraps, I like the thrill of the thickets and rough; Give me my hundred and seventeen raps, Out in the wilds where the going is tough; I like to joust in the sand-filled abysses, I get a kick from the Outer-Bounds wham. I am the bloke who can cheer when he misses, O, what a liar I am!

You make the green, but the bunkers suit me; I like to battle where the heel prints are thick; What do I care if I hook from the tee? Even the water holes give me a kick; Give me the sun and the blue of the heavens, Out where a fellow can get in his slam; I never growl at the "eights" or "elevens"— O, what a liar I am.

Campolo and Risko.

The American atmosphere is now rife with the whirring noise of foreign gloves. Vittorio Campolo, the human skyscraper, will throw a number of them in the general direction of Johnny Risko at Madison Square Garden tonight.

Primo Carnera, the 270-pound descendant of Romulus, or

Remus, is still around making threatening gestures, although he has yet to face anything tougher than a punching bag, leather or human. And in a short while Max Schmeling will be on his way over to annoy Jack Sharkey, who seems easily annoyed at times. These three invaders at least have a much better chance to remove the ancient crown than such invaders as Charlie Mitchell, Georges Carantal and Tour Heant who forth to Silient Carbot Carbot Heant who forther than such invaders as Charlie Mitchell, Georges Carantal Carbot Heant who forther than such invaders as Charlie Mitchell, Georges Carantal Carbot Heant who forther than such invaders as Charlie Mitchell, Georges Carantal Carbot Heant who forther than such invaders are considered to the such than pentier and Tom Heeney, who fought Sullivan, Corbett, Dempsey and Tunney. In the second place Schmeling, Campolo and Carnera haven't any Sullivans, Corbetts, Dempseys and Tunneys barring the highway.

The fragrant odor of new mown kale has lured the best of

the foreigners over and they have arrived at a time when American defenses are on the seamy or leaky side. The present scheme is to have the winner of the Sharkey-Schmeling

fight meet the winner of the Campolo-Carnera whirligig, but Dempsey may upset that by jumping back into the middle of the pit with a glove on each fist. And, meanwhile, Campolo will have to prove his place by topping Risko or beating him decisively.

At least Campolo is meeting a man who is willing to fight and who happened to outfight the same South American a few weeks ago. He isn't inhaling any Carnerian lollypops.

Campolo may get the Carnera fight anyway, just to see how 13 feet of the carnera fight anyway. and 500 pounds would look in a clinch.

Another Invader.

Not all the invading is coming from outside heavyweights. A dark horner by the name of Kid Chocolate, the Cuban entry, is much more dangerous than any of the Campolos or Carneras. He has already thrown out another hint that it is about time to dust off the entrances leading to the cyclone cellars.

Al Ridgeway is something to stop in less than two rounds, but the Cuban entry did it. If the heavyweights had the class of McLarnin, Kid Chocolate or Singer the fight fan might lose part of that tired feeling that haunts his

system today.

The Years Manage to Keep On.

The veteran baseball fan, turning possibly for the first time to-news of training camps and exhibition games, saw where Walsh worked out a few innings. In fact he read where two Walshes worked out. This seemed to be reasonable because Walsh used to do the work of two or three pitchers. One year he worked in 66 games and either won or saved 55 of them. But it wasn't the old Meriden Marvel the veteran read about.

Further on the veteran fan read where Glen Liebhardt, of the Athletics, won his game. "When did Cleveland trade Liebhardt?" he began to wonder. Then he suddenly discovered that the Athletic pitcher was young Glen, not the old-timer. The veteran fan began to feel a trifle old. For the first time he noticed the increasing pressure of the years.

"Are all these ball players," he thought, "the sons of the fellows d to watch? Have I got that far along?"

And then once more the old light came back in his eyes and his chin popped up again. Here were the lines that wiped away at least a few of the years—"Jack Quinn looks as good as ever"— 'Grover Cleveland Alexander allows one hit in three innings"and neither of these was the son of Jack Quinn, or the son of Grover Cleveland Alexander. They were the same pair who were

dicated that Italy and France would be given one more chance to agree. If that failed a five-power treaty would be drawn up for a battleship building holiday until 1936, humanization of submarines and adoption of a combination global tonnage-category system of measuring naval strength.

A three-way agreement among the United States, Japan and Great Britain would be included and France and Italy would be invited to sign as much or as little of this as they pleased.

The Italians and French blamed each other for the deadlock in the conference. Briand and his associates asserted that the difficulty arose because Italy would not submit definite figures as to what world, in her own mind, constitute naval security. The Italian spokesman asserted that within the week two important concessions.

They said in effect that the proposed agreement did not meet the three Japanese fundamentals of a 70 per cent ratio of big cruisers, a 70 per cent total of auxiliary tomage and a total Japanese tonnage of 78. 000 in submarines. It was acknowledged, however, that the compromise gave Japan a strength equal to 69.6 per cent of the total American flect.

The following information is contained in a letter, dated The Hague, March 13, 1930, from Sir Henri W. A. Deterding, K. B. E., General Managing Director of Royal Dutch Company for the Working of Petroleum Wells in the Netherlands-Indies: BUSINESS

Royal Dutch Company for the Working of Petroleum Wells in the Netherlands-Indies, through its controlled companies, constitutes the world's leading enterprise engaged in the production and distribution of petroleum and its products. The Royal Dutch company, incorporated in the Netherlands in 1890, owns 60% of the outstanding common stocks of The Batavian Petroleum Company, The Anglo-Saxon Petroleum Company, Limited and The Asiatic Petroleum Company, Limited, the remaining 40% in each case being owned by The "Shell" Transport and Trading Company, Limited. The Batavian Petroleum Company owns approximately 64% of the outstanding common stock of Shell Union Oil Corporation. The gross production of the group of companies controlled, directly or indirectly, by the Royal Dutch company amounted in 1929 to an aggregate of approximately 163,000,000 barrels of crude oil, constituting more than one-tenth of the estimated world production for that year. Production of the group in 1929 was principally from oil lands in Venezuela, United States and Netherlands-Indies. Physical properties of the group include 30 oil refineries with an aggregate daily capacity of approximately 635,000 barrels, storage facilities with a capacity totaling approximately 70,000,-000 barrels, and a fleet of tankers, including chartered vessels, with an aggregate dead-weight tonnage of approximately 1,600,000 tons. The marketing organizations of the group distribute its products in nearly every country in the world.

CAPITALIZATION The capitalization of the Royal Dutch company, adjusted to give effect to the issuance of these Series A debentures, and to the issuance of 5% milder debentures in exphange for 41/2% priority stock as set forth below is as follows:

me of the Royal Dutch company is derived largely from dividends from investments in controlled companies. Such dividends are taken up in the company's accounts in the year with respect to which the same were paid, that is, for the most part, in the year prior to the year in which received. Net income of the company after all charges including taxes and payments to managers and directors, for the period of five years ended December 31, 1928, was as follows:

1924..... 1925..... 1926..... 1927..... 40,537,200

Although final figures for the year 1929 will not be available for several months, the management believes that net earnings of controlled

companies for 1929 were at least as satisfactory as for 1928. The annual interest requirement on the \$51,457,000 principal amount of debentures shown above as outstanding is \$2,172,850.

NEW YORK SHARES

The New York shares issuable upon the exercise of the share purchase warrants described above are to represent common stock of the Royal Dutch company in the ratio of three such New York shares for each 100 guilders (\$40.20) par value of such common stock, and are to be issued by The Equitable Trust Company of New York under an agreement dated September 10, 1918. The outstanding New York shares (approximately 955,000 outstanding as at March 13, 1930) are listed on the New York Stock Exchange and are currently quoted at approximately \$50 per share. DIVIDENDS

Dividends have been paid on the common stock of the Royal Dutch company with respect to each year since 1902, such dividends in recent years having been paid in the form of an interim dividend in January, and a final dividend in July. The amount of such dividends paid in 1929 (with respect to the year 1928) totaled 24% of par value, equivalent to approximately \$3.20 per New York share. An interim dividend of 10% was paid in January, 1930, and the management expects that a final dividend of 14% will be paid in July, 1930. MARKET EQUITY

The indicated aggregate market value of the outstanding common stock of the Royal Dutch company, based on current market quotations, is approximately \$750,000,000. The company's common stock or certificates representing such common stock are listed on the New York, London, Paris, Amsterdam, Brussels, Zurich and Batavia (Netherlands-Indies) stock exchanges.

ness situation again appeared last week in cheapening credit. Industrial operations generally continued to lag, and retail and wholesale trade failed to show much vitality, but there was a growing conviction in business circles that the foundation is being firm-

ly laid for steady, if slow, improve-ment during coming months.

While no further reduction was made in the New York rediscount rate of 3 1-2 per cent, rates for sev-eral monetary accommodations in New rate of 3 1-2 per eral monetary accommodations in New York fell to the lowest levels in five years or more. The situation was somewhat accentuated by the release of credit coincident to the quarterly treasury financing, but little doubt treasury financing, but little doubt somewhat accentuated by the release of credit coincident to the quarterly treasury financing, but little doubt was left that a sustained period of reasonable credit has started. The Bank of England reduced its discount rate by another 1-2 of one per cent. Bankers' acceptances fell to 2 1-2 per cent asked, and commercial paper moved as low as 3 3-4 per cent for prime hames, although 4 per cent was still formally quoted. An enormous demand for bonds developed, and savings banks were reported once more investing in real estate mortgages.

Oil Production Up.

Crude oil production gained moderately, but this was in part due to opening of wells for test purposes. The petroleum outlook was generally regarded with considerable optimism. A stiffening of mid-continent crude prices failed to appear, but was still predicted. Copper buying showed slight gains, but large buying by public utilities is looked for over next few months, and chances of maintaining the 18-cent-apound price level are regarded as little better than they appeared a fortnight ago.

Among the less favorable developments of the week were announcement by President Carlton, of Western Union, that the company would fail to earn its dividends during the current quarter, the volume of tele-

## Wall Street Briefs.

NEW YORK, March 23.—In spite of the lower interest rates and improved credit conditions, business at present is in a waiting attitude, says the March report of the conference board. "Business activity slowed up during February and very little change has been noticeable during the first half of March." the report states. "The reluctance on the part of buyers and borrowers to avail themselves of the easier redit conditions evidently is due in part of the influence which the unemployment duration has upon business psychology as well as upon consumer psychology and purchasing power."

NEW YORK, March 23.—(P)—

Climbing to the highest levels in about two years, the bond market is anticipating the period of cheap money which is now generally expected in financial circles.

The advance in prices last week under the impetus supplied by successively sharp cuts in interest rates was one of the most rapid in recent times. A tidal wave of funds swept into the market for listed and unlisted issues as banks hastened to take advantage of the spread between yields from securities and loans. This demand abated somewhat when call money was raised from 2 to 4 1-2 per cent but the market held its gains well on the expectation that time loans were on the way to a 3 1-2 per cent level.

Comparisons show that bonds have advanced two points, on the average, since January I, and four points since last November. The composite price of 100.5 for thirty issues is still nearly two points below the 1928 top, but that figure represents the peak of a long period of appreciation.

One of the interesting features of the current financial year is the shift to bond financing. Since January 1 domestic and foreign loans have reached the rather surprising total of \$1,500,000,000, while in the same inter-

advanced two points, on the average, since January I, and four points since last November. The composite price of 100.5 for thirty issues is still nearly two points below the 1928 top, but that figure represents the peak of a long period of appreciation.

One of the interesting features of the current financial year is the shift to bond financing. Since January 1 domestic and foreign loans have reached the rather surprising total of \$1.500,000,000,000, while in the same interval corporations have raised slightly less than \$100,000,000 through stock offerings. At this time a year ago bond issues were only about \$20,000,000 in excess of stock flotations, each amounting to just under \$1,000,000.

each amounting to just under \$1,000, 000,000.

Two months ago the flood of new issues had a depressing effect on listed bonds, retarding the latter's receivery. In the last fortnight, however, the recent heavy emissions of securities have been snapped up eagerly and the market has gone forward with increasing vigor. Last week's bond financings totaled \$195,091,000, surpassing the previous week by \$11,000,000.

Bank buying of both new and sensoned issues has been the most important influence on the price trend. These institutions have been successful of late in liquidating frozen loans, and finding themselves with large

funds at a period of exceedingly low money rates, have taken bonds in large blocks. There has also been speculative buying as well as strong inquiry from individuals for high grade securities.

A large total of new foreign issues is expected in the near future, although little is beard of the plans for the German reparations loan which will probably be the year's major operation in international finance. Among the offerings announced for this week is an \$8,000,000 issue of Province of Buenos Aires 6 1-2s, maturing in 1961 and priced at 95 1-2. had the effect of stimulating the recovery in raw cotton prices.

The sales of spots in southern markets as reported from day to day
made a disappointing showing compared with last year, and exports also
were unsatisfactory, the total for the
season now running behind last season for the corresponding period by
nearly 860,000 bales.

of constructive factors.

The turn has undoubtedly been made but desire to liquidate stocks at the mills which are still, in many cases, larger than they should be, will tend to make immediate advances slow and hesitating. While one man decides to hold his goods for better prices, another thinks it advisable to accept any little advance for goods that he may have been holding for two or three months and has not been able to sell. Our remarks apply particularly to spot and near-by goods. When it comes to sales for later delivery, we think we can count on a very general unwillingness to sell far ahead at anything like current levels. It stands to reason 'that, while circumstances may require some immediate business being done at cost or less, it is pretty hard to see what reason there can be for selling goods for the summer months with today's outlook on any such basis. Converters already are looking for print cloths for later delivery for their fall lines and it looks to us as if they would either have to take near-by goods and carry them or pay further advances to secure the deliveries they want.

We remain as convinced as ever that consumption of cotton goods, based on prices that have existed for the last three months and still exist, will lead to greatly increased consump-8234.

(Argentine Republic)

61/2% External Sinking Fund Gold Bonds of 1930

Dated February 1, 1930 Due August 1, 1961 Interest payable February 1 and August 1. Principal and interest payable at the office of The First of Boston Corporation, Paying Agent, in New York, in United States gold coin of the present standard of weight and fineness, or, at the option of the holder, in London, at the office of Harris, Forbes & Company, Ltd., Sub-Paying Agent, in Steriling at the rate of \$4.8665 to the Pound, or, at the option of the holder, in Buenos Aires, at the principal office of The First National Bank of Boston, Buenos Aires Branch, Sub-Paying Agent, in Argentine Gold Pesos at the rate of 1.0364 Gold Pesos to the Dollar. Principal and interest payable in every case without deduction for any Argentine taxes, present or future. Coupon bonds in denominations of \$1000 and \$500, registerable as to principal only. Redeemable in whole or in part on 30 days' notice on any interest date at par and accrued interest.

The Province covenants to provide a cumulative sinking fund of 1% per annum, calculated to be sufficient to retire all the bonds by maturity, to operate semi-annually by purchase below par and accrued interest, or, if bonds are not so obtainable, then through drawings by lot at par and accrued interest. The Province reserves the right to increase any sinking fund payment.

THE FIRST OF BOSTON CORPORATION, NEW YORK, Paying Agent HARRIS FORBES TRUST COMPANY, BOSTON, Authonicating Agent

The following information (transmitted by cable) is furnished by Senor Francisco Ratto, Minister of Finance of the Province: Province of Buenos Aires The Province of Buenos Aires is the most important province of the Argentine Republic and ranks first in area, in population and in railroad mileage as well as in industrial, agricultural and commercial development. The area of the Province (117,700 square miles) is greater than the combined areas of the New England States and the State of New York. The population exceeds 3,600,000, being more than one-fourth of the entire population of Argentina. A separate Federal District (analogous to the District of Columbia, U. S. A.) containing the city of Buenos

Aires, capital of the Argentine Republic, adjoins the Province and, with its population of more than 2,000,000, provides a permanent and important market for the food and other products of the Province. Authority and Purpose of Issue The issuance of these bonds is authorized by Law 3941 of November 2, 1927 enacted by the Legislature of the Province. The proceeds will be used to provide school houses and other public buildings in various parts of the Province and to redeem \$4,000,000 of short-term obligations of the Province issued to provide funds for like purposes. Under contracts already entered into by the Province, 110 school houses have been completed or are nearing completion and plans have been prepared for 223 additional school buildings. This new construction will result

in a substantial saving through the release of rented buildings. Security These bonds are the direct obligation of the Province of Buenos Aires which pledges its full faith and credit for the due and punctual payment of principal, interest and sinking fund. In addition, Law 3941 authorizing these bonds appropriates, as subject to specific charge and lien for the exclusive benefit of the bonds issuable thereunder, an annual amount out of the revenues of the Inheritance Tax cal-

After deducting annual prior charges from the Inheritance Tax receipts for 1929, the remainder is equivalent to more than 51/2 times annual service charges on this issue and more than 33/4 times annual service charges on the total amount of bonds authorized under Law 3941 including bonds not yet issued—calculated at current rates of exchange. Such remainder is equivalent to more than 7 times annual service charges on this issue at par of exchange. The revenues of the Province continue to reflect the constant improvement in its financial status

culated to exceed the maximum annual requirement for interest and sinking fund on such bonds.

that has been manifest for the last four years. For the fiscal year 1927 the revenues collected amounted to \$48,995,000; for 1928 to \$54,531,000, and for 1929 to \$57,750,000. The fiscal year 1927 showed a deficit of \$1,993,000. The fiscal year 1928 closed with a surplus of \$443,000, and the fiscal year 1929 For over 30 years, with the exception of two years during the World War, the Province has never failed to

provide funds for the interest payments on its external debt. The Province funded the 1915 and 1916 in-

terest payments at the time and sinking fund payments were resumed in 1919 and 1920. The total funded indebtedness of the Province, including this issue, amounts to \$268,340,000 and the assessed value of privately owned real estate is in excess of \$5,000,000,000. All conversions of Argentine pesos into United States currency have been made at par of exchange, namely 42.45 cents per paper peso. The current rate of exchange (as of March 19, 1930) is approximately 37.75 cents per paper peso. The Current rate of exchange (as of March 19, 1950) is approximately 37.75 cents per paper peso. The Caja de Conversion (Argentine Currency Conversion Office) was closed continuously from August 1914 until August 1927, when it was reopened. It was again closed on December 16, 1929. The total amount of gold held by the Caja de Conversion exceeds, however, \$427,690,000 (as

such deposits there have been issued in Argentina approximately 26,000,000 paper pesos (not included in the foregoing calculation) with respect to which the gold reserve is accordingly 100%. Application will be made to list these bonds on the New York Stock Exchange

of March 19, 1930) representing a reserve of over 77% of the currency in circulation, which gives Argen-

tine currency one of the highest gold reserves in the world. In addition, there is on deposit abroad to the

order of Argentine embassies and legations an amount of gold equal to more than \$11,000,000 and against

Keeping well in the shadows of the shrubbery growing profusely about the bungalow, Werper made his silent way to a point beneath an open window of the room in which he could hear his host and hostess talking earnestly. Almost the first words he overheard filled him with excitement. Lady Greystoke was speaking: "I always feared this might happen, but it seems incredible."

"Whatever the cause," replied Tarzan, "the fact remains that I have lost everything, and there is nothing for it but to return to Opar and get more gold." "Oh, John," cried Lady Greystoke and Werper could feel the shudder through her voice, "I would rather live in poverty always, than have you risk the hideous dangers of Opar. Is there no other

"There is no other way half so easy to obtain another fortune, as to return to the treasure vaults of Opar and bring it away," replied Tarzan, "You need have no fear. I shall be very careful, my dear, and the chances are that the inhabitants of Opar will never know I have been there again. They do not know the value of their treasure. In fact few of them know of its existence."

Loans on Real Estate 40 Disappearing Mortgage

FEW reasons why "The disappearing meetgage plan" should be placed upon a home.

Monthly payments are less than rent.

Easier for the man with the monthly income.

Easier for the man with the monthly income.

Safer because the entire mortgage does not
fall due at one time.

It places the complete payment of your
home on a basis of certainty.

No more refinancing cost.

to be announced being Wilmer Peters, of Dublin, who was selected from the contestants in the 12th congressional district at Dublin Saturday night. Young Peters took as his subject, The Citizen, His Privileges and

FELIX DE GOLIAN,

"The Citizen, His Privileges and Duties Under the Constitution." Second place was awarded to Miss Vivian Zeesman, of Helena; third to Miss Hazel Kennington, of Cochran; fourth to Marvin May, of Stillmore, and fifth to Miss Vivian Tate, of Vidalia. The judges for the 12th district contest were Dr. John B. Clark, Dr. Fred L. Jones, Dean W. T. Smalley, all of the Mercer University faculty.

The constitution of the United States, or a theme allied with the framing and working of that doeument, is the subject on which all contestants have based their speeches. The interest in the preliminary contests has been exceedingly keen and reports on the results are being tabulated day by day, as reported.

Felix DeGolian, of Marist college, Friday night was declared winner in the fifth district at a contest held at Marist. He is the 16-year-old son of Mr. and Mrs. F. E. DeGolian, of Howell Mill road, and he spoke on the subject, "Lincoln and the Constitution."

The contests were held Friday and Saturday nights, when the district winners were chosen. These finalists will come to Atlanta on April 19 to enter the state finals at the capitol, the winner of which will be given a chance to compete in the national semi-thnais in Pittsburgh when the southeastern and centrol zone states send their speakers to compete. Zone winners then will appear in Wash-ington for the national finals, and the best selected will be eligible for an international contest.
